

# AGATI

## Testimonials

*"I wanted to utilize some of the innovative methods of wire management that Agati developed for their furniture in the design of new computer carrels at Wayzata Library. I was impressed when Joe Agati flew to Minneapolis to attend a meeting with my client, Hennepin County Library, to discuss those possibilities with the end users. Joe is dedicated to his work and knows the details of his business. With regard to his staff, they are a capable and professional group. In this business there are always things that need attention; when the need arises the people at Agati do not ask questions, they take care of you."*
