

## Welcome to AGATI

AGATI Furniture is known for its innovative designs, durable construction and exceptional customer service. Throughout the years, the name AGATI has become synonymous with the words classic, quality and value. Offering a commitment that extends well beyond its competitors, AGATI has earned its reputation as a premier manufacturer and resource to architects and designers across markets.

Furniture styles range from classic, standard collections to contemporary designs and custom modifications. Each year brings more product offerings and a wider range of styles without compromising the integrity of the product. In the 1980's AGATI launched its library division. Word of mouth praise from librarians, architects and designers across the country helped AGATI build its name and solidify its foothold in the market. AGATI attributes its strong client base and repeat customers to solid relationships, a willingness to listen and individualized attention.

At the foundation of AGATI is its Design and Engineering department. Offering years of expertise, an in-house Design and Engineering team takes the project from drawing board to delivery. Furniture is made specifically for each project in order to meet the client's needs. AGATI understands the value of being a resource to both the client and the designer and takes every effort to ensure the greatest long-term return on investment.

AGATI collections are original designs and are constructed to endure constant heavy use. Wood side and arm chairs are assembled with mortise and tenon joints that are secured with hardwood metal pins, making the strongest joint possible. Chairs feature one-piece, steam bent, solid lumber back posts for superior stability and strength. Chair backs are engineered with lumbar support shaped into the back splats or slats, as well as designed for patron comfort. Table bases are constructed with end aprons and leg stretchers, and are mounted to the bottom face of the table tops with steel plates secured with mechanical fasteners. This structure provides a foundation for a solid, long lasting work surface. The time, effort, and care expended in the manufacturing of these products ensures many years of safe use.

In a world where resources are at a premium, AGATI takes its role seriously by staying current with green processes and technological advances. As clients increasingly turn to the internet for instant information retrieval, AGATI is able to provide faster access to resources through [www.agati.com](http://www.agati.com). Keeping the website fresh and timely allows AGATI to scale back on the amount of printed materials distributed. New information is immediate, allowing AGATI greater exposure in reaching audiences far and wide.

The information age also translates into AGATI's furniture as power and data wire management issues are addressed before undertaking a project's furnishing designs. And while facilities are equipped with the most modern equipment and technology, traditional spindle carving and profile shapers still remain AGATI specialties. It is this contrast that demonstrates the foundation of AGATI – an ability to stay true to its roots in traditional design, while keeping in step with an ever-changing world primed for AGATI's inventive perspective on furniture design.

## Using the Website

We hope you enjoy perusing our selections, and we invite you to continue your journey into AGATI Furniture by visiting us at [www.agati.com](http://www.agati.com). We are pleased to offer our catalog as an overview of AGATI offerings but this is just the beginning to all that AGATI has to offer. Thanks to the AGATI website, we are able to showcase all of AGATI's capabilities. We are constantly updating and re-designing our website to make it as user-friendly as possible with PDF-printable files on every page, whether you are looking for product or general information. Bookmark the AGATI Downloads page where we store product brochures, tearsheets and company information in one easy-to-use centralized location.

Whether looking for product information, a local sales representative or various installations, we encourage you to visit [www.agati.com](http://www.agati.com) often and plenty, and we welcome your feedback, as we never stop trying to improve our resources! Email us at: [info@agati.com](mailto:info@agati.com)

## Our Partners

AGATI is also proud to promote its partnerships with **Designtex**, our preferred textile design and product development firm. AGATI's fabric standards are all Designtex fabrics. Choose from an array of performance fabrics including Crypton, NANO-TEX and stain-repellent fabrics. Designtex offers fabrics that meet or exceed various ACT performance standards including fire retardancy, colorfastness to wet and dry crocking, colorfastness to light and abrasion resistance. Select Designtex fabrics are offered at an AGATI discount. For more information visit [www.dtex.com](http://www.dtex.com) or contact your local AGATI sales representative.

**Forbo Marmoleum** is AGATI's choice for work surfaces. A natural linoleum product, the Forbo products are made of wood flour, limestone, linseed oil and rosin binders on a jute backing. Not only is the product made from readily renewable ingredients, Forbo's commitment to the environment includes its processes and ISO certified facilities. Marmoleum is the cornerstone of how Forbo creates better environments. A leading global brand in commercial floor covering, Marmoleum has the lowest environmental footprint available. Marmoleum carries the most independent LCA (life cycle assessment) based environmental labels and certifications and offers a dynamic color palette that makes it a leader in color and design. Forbo is proud of its 100 year+ track record of performance and durability. Marmoleum sets a benchmark unmatched in the flooring industry. Find out more about Forbo by visiting [www.forbolinoleumna.com](http://www.forbolinoleumna.com).

Ultimately, Agati furniture is built to stand the test of time. We believe in extraordinary architecture and remarkable furniture, and we look forward to enhancing your environment for years to come.

Thank you for your interest in AGATI.
