

GEE
MODULAR

The basic Gee starts as a lounge chair on steel, metal legs. Use as an armless or arm chair, add privacy side panels, back panels or pair with occasional tables.

Configure as a pinwheel, with or without tablet arms, to maximize space yet afford each user individual privacy.

Multiply the Gee Lounge chair to create functional, sleek seating where space is a premium. Gang individual Gee chairs together, add occasional tables, and the basic Gee is transformed. Ideal for open or common areas, the Gee accommodates multiple users in ultimate style and comfort.

GEE MODULAR

The Gee Lounge chair is more than just a single chair. Expand the basic Gee Lounge to accommodate small groups while maintaining privacy. Connect two Gee Lounge chairs with a joining occasional table. Add back panels to allow for additional privacy while decreasing sound overflow. Create a small public space. No matter what the size or the need, the Gee chair is designed to fit its space and not the other way around. Comfort is a necessity while configurations are endless. Let your imagination flow.
