## why AGATI?

### **AGATI knows design.**

AGATI Furniture is synonymous with timeless designs and exceptionally crafted pieces. Clients and designers everywhere use the AGATI team as a trusted resource. But it is Agati the person that makes his company renowned. Lead by Joe Agati's vision and talent, the AGATI approach is to provide individualized attention and tailored solutions to meet the needs of our clients.

AGATI's ability to provide classic, yet functional designs transcends all markets. Known for its work in the institutional market, AGATI builds furniture to withstand the rigors of daily use. Institutional environments see a revolving door of users on a daily basis, and furniture must be able to stand the test of time. AGATI also understands that every project has its budget. Modifying standard collections is one way AGATI works to keep costs down. Being able to enhance an already standard collection allows AGATI to work within budget constraints, while still supplying our clients with custom capabilities.

Ultimately, AGATI's mission is to be a high quality furniture resource to architects, designers and clients through design, engineering, and project management expertise. Each design is carefully considered for structure, strength, and durability. These elements are critical to a long product lifecycle and reduced landfill waste. Our sustainable products result from using renewable American hardwoods and other natural materials to meet the goals of green architecture.

## quality comfort

### **Superior American craftsmanship.**

All AGATI Collections are original designs and are constructed to endure heavy use. AGATI manufactures its chairs using the mortise and tenon method, not the more common dowel method. Each right angled joint is secured with a hardwood pin, making the strongest joint possible. AGATI chairs also feature one-piece, solid lumber back leg posts for superior stability and strength. Engineered with lumbar supports and shaped into the back splats, AGATI chairs are designed for patron comfort – not for easy manufacturing. Chairs can be modified to compliment their surrounding interiors, enhancing any environment.

Table bases are constructed with side aprons and leg stretchers, and are mounted to the bottom face of the table tops with steel plates. This structure provides a foundation for a solid, long lasting work surface. The time, effort, and care expended in the manufacturing of these products ensure many years of safe use.

# Library

AGATI knows libraries. AGATI launched its library division in the 1980's and quickly grew to become a benchmark within the industry by offering personalized service and acting as a resource to librarians, architects and designers across the country. Known for its innovative designs, durable construction and exceptional customer service, the AGATI name has become synonymous with words like classic, quality and value.

## versatile collections

### AGATI Collections

AGATI designs are characterized by a blend of aesthetics and engineering to create exceptional and enduring furniture. Collection styles range from traditional to contemporary and feature tables, carrels, service desks, bookcases, and seating options. AGATI Collections are designed to complement and work with other AGATI pieces.

Whether new construction, renovation or simply adding a few pieces, AGATI Collections create a streamlined and cohesive environment. AGATI works diligently with every client to create classic, and functional furniture solutions specific to each project's needs.

## Law Library

AGATI Furniture has a special relationship with law libraries. AGATI's well-constructed pieces, coupled with timeless designs, suit a law library's need for longevity. Furniture is made specifically for each project in order to meet the client's needs. AGATI understands the value of being a resource to both the client and the designer and makes every effort to ensure complete satisfaction.

## solid solutions

### Did you say Custom?

An in-house Design and Engineering department offers the client and project design team the ability to select an AGATI furniture collection and modify that design to meet a building's unique characteristics. Offering a complete design and engineering package, AGATI takes a project from the drawing board to delivery. Throughout each phase - interior design, engineering and installation - we act as a resource to both the client and the interior designer, thus ensuring the client receives the greatest long-term return on investment.

AGATI's engineering and craftsmanship are of the highest quality. Along with standard collections, vast custom capabilities make AGATI an unrestricted manufacturer of quality wood furnishings.

Ultimately, AGATI furniture is built to stand the test of time. We believe in extraordinary architecture and remarkable furniture, and look forward to enhancing your environment for years to come.

## Technology

### Furniture for today's technology.

Solid solutions mean making sure the client's needs are met. In today's age, furniture that can adapt to space constraints and work flow is vital. Small spaces must often support staff trying to work together quickly and efficiently. AGATI responds to these needs with its Elements System. Available in two different sizes, Element serves as a back room desking solution one moment, a front area reception desk another or a nurse's station with standing and sitting-height worksurfaces.

AGATI also believes in keeping current with today's developing technology needs. Power and data wire management issues are addressed before undertaking the designs for the project's furnishings. And while AGATI'S facilities are equipped with the most modern equipment and technology, we still specialize in traditional spindle carving and profile shapers.

## playful learning

### AGATI Children's Collections

AGATI lets its playful side shine through in its Children's Collections. Designed with AGATI's signature durability, the Children's Collections lighten and brighten spaces, allowing children to safely play and parents to relax.

The Altra Forma Collection is an array of geometrical foam shapes dipped in brilliant colors. Stack them up, fit them together, or lounge on them to read, these vibrant shapes energize environments with boundless opportunities. The Agati Friends+ Collection helps transform regular rooms into lively settings with the Agati Friends+ characters. Round out the collection, is a dual-seat, u-shaped rocker aptly named Banana Moon.

AGATI's Children's Collections open the door to refreshing new solutions giving youngsters a creative and diverse way to occupy time while breathing new life into any room! Visit [agati.com](http://agati.com) to see more.

### Spiritual Spaces

AGATI designs are characterized by a blend of aesthetics and engineering to create exceptional and enduring furniture. AGATI's custom capabilities provide the flexibility to accommodate various projects and budgets.

An in-house design and engineering department offers the client and project design team the ability to select an AGATI furniture collection and modify that design to meet a building's unique characteristics. Kneelers and bookcracks can be adapted to many of our chairs. See your AGATI representative for more details.

AGATI is defined by versatility. Designs combine a unique blend of aesthetics and engineering, distinguished by their eclectic styles. Inspired by the need for furniture that is both timeless and universal, AGATI is committed to the design and engineering of each and every piece.

Furniture built to last a lifetime means investing in the future. AGATI is dedicated to implementing sound environmental practices such as utilizing domestic reforested lumber, as well as reusable packaging materials. AGATI believes in helping preserve resources at no expense to the integrity of the product or the satisfaction of the customer.
