

POD Quick Ship

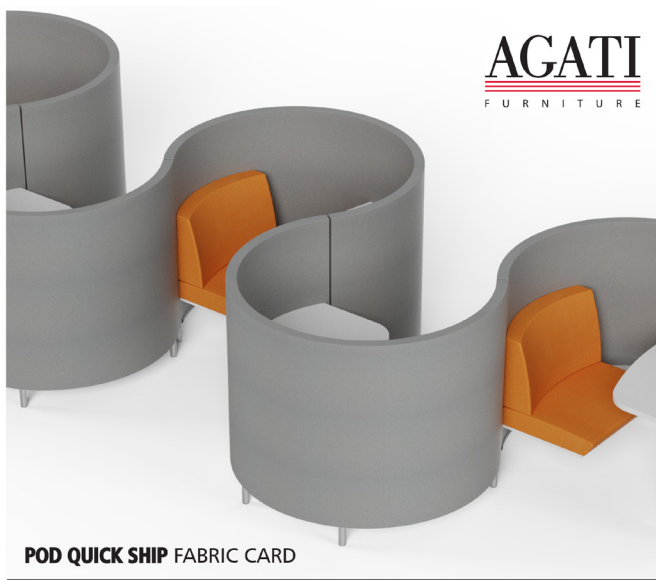

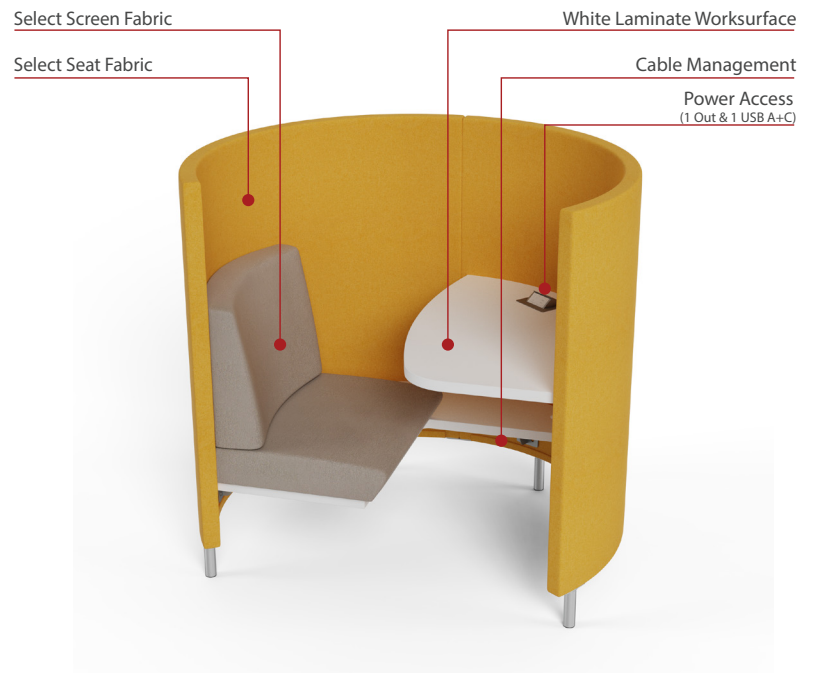

The POD has been one of Agati's most successful products for 7 years and continues to grow in popularity. Due to the high request rate, we are offering the POD Quick Ship to deliver the same revolutionary POD to clients faster. POD Quick Ship is identical the Original POD in every way, but uses our carefully selected and stocked materials.

The Agati POD is a revolutionary design for single users craving quiet and focus. The key to the POD's effectiveness is its curved shape, upholstered panels, and the unique position of the user. The POD rotates the user 90 degrees, placing the user inside the carrel and creating a feeling of haven and focus. University and Public Libraries love the POD because it simply works better than traditional study carrel designs while also creating a stunning aesthetic in your public space.

POD Quick Ship
