Overview

AGATI Furniture is synonymous with timeless designs and exceptionally crafted pieces. Clients and designers everywhere use the AGATI team as a trusted resource. But it is Agati the person that makes his company renowned. Lead by Joe Agati's vision and talent, the AGATI approach is to provide individualized attention and tailored solutions to meet the needs of our clients.

AGATI's ability to provide classic, yet functional designs transcends all markets. Known for its work in the institutional market, AGATI builds furniture to withstand the rigors of daily use. These types of environments see a revolving door of users on a daily basis, so the furniture must be able to stand the test of time. AGATI also understands that every project has its budget.

Modifying standard collections is one way AGATI works to keep costs down.

Being able to enhance an already standard collection allows AGATI to work within budget constraints, while still supplying our clients with custom capabilities.

Ultimately, AGATI's mission is to be a high quality, furniture resource to architects, designers and clients through design, engineering, and project management expertise. Each design is carefully considered for structure, strength, and durability. These elements are critical to a long product lifecycle and reduced landfill waste. Our sustainable products result from using renewable American hardwoods and other natural materials to meet the goals of green architecture.

Superior American craftsmanship.

All AGATI Collections are original designs and are constructed to endure heavy use. AGATI manufactures its chairs using the mortise and tenon method, not the more common dowel method. Each right angled joint is secured with a hardwood pin, making the strongest joint possible. AGATI chairs also feature one-piece, solid lumber back leg posts for superior stability and strength. Engineered with lumbar supports shaped into the back splats, AGATI chairs are designed for patron comfort - not for easy manufacturing.

Chairs can be modified to compliment their surrounding interiors, enhancing any environment.

Table bases are constructed with side aprons and leg stretchers, and are mounted to the bottom face of the table tops with steel plates. This structure provides a foundation for a solid, long lasting work surface.

The time, effort, and care expended in the manufacturing of these products ensure many years of safe use.

AGATI knows design.

AGATI is defined by versatility. Designs combine a unique blend of aesthetics and engineering, distinguished by their eclectic styles. Inspired by the need for furniture that is both timeless and universal, AGATI is committed to the design and engineering of each and every piece.

Furniture built to last a lifetime means investing in the future. AGATI is dedicated to implementing sound environmental practices such as utilizing domestic reforested lumber, as well as reusable packaging materials. AGATI believes in helping preserve resources at no expense to the integrity of the product or the satisfaction of the customer.

Celebrated for its design. Chosen for its quality.

AGATI

AGATI

GENERAL INFORMATION

Prices	Published prices are list unless otherwise indicated.	Prices are subject to change without notice.
Warranty	<p>AGATI products are warranted against all defects in materials and workmanship for a period of ten years from date of delivery. This includes the following: veneer lifting or peeling, glue joint failure, and wood joints pulling apart. AGATI hand crafts and finishes its products using the finest hard woods and traditional hand finishing techniques. AGATI uses finishing techniques that are intended to highlight the inherent beauty of the wood used in its products. Depending upon the figure of the wood used, certain areas may take the stain differently than others.</p> <p>This is considered a sign of high quality, unretouched finish. Finishes mellow with age. Since wood is a natural material, some expansion and contraction is to be expected. The foregoing is not to be considered a defect in the materials or manufacturing process used and is not covered under warranty. The catalyzed finishes used by AGATI are very durable and will not cloud or ring from water stains and are resistant to solvents such as alcohol.</p>	<p>The AGATI warranty covers the lifting of any plastic laminate from the substrate but can not underwrite the laminate manufacturer's guarantee against scratching and chipping.</p> <p>During the warranty period, AGATI will, at its discretion, repair or replace defective merchandise free of charge.</p> <p>This warranty does not extend to COM, COL or any non-standard materials selected by and used at the request of the customer. This warranty does not extend to damage resulting from shipping, accident, alteration, misuse, tampering, negligence, abuse or ordinary wear and tear. This warranty is given expressly and in lieu of all other warranties, express or implied, or merchantability and fitness for particular purpose and constitutes the only warranty made by AGATI.</p> <p>No merchandise may be returned to AGATI without AGATI's written approval.</p>

Orders and Terms	<p>Each customer's order will be processed as indicated on AGATI's shop drawings, and is the final agreement between AGATI and the customer and supersedes all prior written and oral data regarding said order. Any discrepancy between the customer's purchase order and AGATI's confirmation must be brought to AGATI's attention, in writing, within ten days from the date of confirmation. As a general rule, AGATI will accept changes to confirmed orders under the following conditions:</p>	<ol style="list-style-type: none">1) The request must be submitted in writing and received in time so that the requested change may be incorporated into the production schedule.2) Changes will be subject to review by AGATI's production staff. Additional charges for materials, labor and administrative costs will be billed as necessary. <p>AGATI will confirm all order changes in writing.</p>
-------------------------	---	---

Order Acknowledgement	<p>Acknowledgement will be made for each order and indicates final production specifications. Buyer should check the acknowledgement to be sure that all order details are correct. Orders will not be acknowledged or entered for production until all specification information is complete. Accepted orders are subject to the terms and conditions set forth herein and on our acknowledgement, notwithstanding any variance in terms and conditions set forth on buyer's order form.</p>	<p>We are not responsible for delays beyond our control and will ship when merchandise is ready, invoicing as of that date. If buyer cannot accept, warehousing charges will be imposed. Partial shipments may be made and invoices covering these shipments are to be paid as they fall due.</p>
------------------------------	---	---

AGATI

GENERAL INFORMATION

Warehousing	As production space is at a premium, orders will be shipped as ordered.	On orders which cannot be shipped, furniture will be invoiced and warehousing charges will accrue on a monthly basis.
Cancellations, Changes and Returns	All cancellations, changes and returns must be requested in writing from our office and are not allowed without authorization. Authorized returns are subject to our shipping instructions. Changes are subject to our ability to comply and cancellations where production has begun will	incur a charge of 10% or more, depending upon state of production. Custom items may not be cancelled. Table orders normally cannot be cancelled as veneers and laminate tops are ordered immediately.
Shipping	Shipping options depend on size of order, destination and whether the product is cartoned or blanket wrapped.	For larger orders we will provide freight quotes.
Freight Damage and Claims	All items must pass through final inspection before being released to a transportation company which assumed responsibility for goods at that time. Product is reshipped FOB origin and, once in transit, title passes to buyer who is responsible for resolving any transit related issue. Therefore, if shipment is received damaged, buyer must both file a claim and look to carrier for adjustment and our invoice in all conditions falls due as rendered. The following suggestions may assist buyers in handling freight claims:	<p>In the event of obvious damage, note damage on both copies of the freight bill and ask the driver to sign both copies.</p> <p>Note any excessive wear, damage or handling marks on cartons, especially if cartons appear to have been dropped, and follow written instructions on shock watch labels on cartons.</p> <p>Report concealed damage to carrier as quickly as possible. Request that the carrier send an inspector immediately. Retain all cartons and packing materials.</p>
Design Rights	Designs shown in AGATI catalogs and literature and website are, and remain, the property of AGATI who reserves the exclusive right to manufacture them. Any reproduction of these designs constitute an infringement	of AGATI rights and will incur prosecution. AGATI reserves the right to make changes in price, dimensions and/or construction without prior notice.
Custom Quotations and Orders	AGATI welcomes the opportunity to quote on custom designs and variations on existing designs. Requests must be thoroughly described and accompanied by drawings or sketches to insure correct interpretation. Custom designs are subject to interpretation by AGATI's production staff.	Orders for custom designs will be confirmed by AGATI in the usual manner along with shop drawings prepared by AGATI, which will require the customer's written approval to initiate production.
For More Information Contact us	AGATI Furniture 451 N. Claremont Ave. Chicago, IL 60612	Phone: 312.829.1977 Fax: 312.829.8249 www.agati.com

As a wood furniture manufacturer, our efforts are to keep our forests healthy. AGATI believes in responsible business practices now, to ensure that we will have forests for future generations to enjoy.

AGATI's mission is to be a high quality furniture resource to architects, designers and clients through our design, engineering, and project management expertise. Each design is carefully considered for structure, strength, and durability. These elements are critical to a long product lifecycle and reduced landfill waste. We produce sustainable products by using renewable hardwoods and other natural materials to meet the goals of green architecture.

Designing for the Future

AGATI designs stand the test of time. Classic designs that do not cater to trends extend the longevity of our products. Clients are more likely to hold onto furniture for their lifespan versus discarding and buying new because of outdated styles.

Standard Practices

MATERIALS:

- AGATI's main material sources are hardwoods, which are sustainable solutions for eco-effective design and fabrication. AGATI uses locally grown hardwoods, coming from responsibly managed forests. American hardwoods (oak, cherry, maple, walnut) are renewable resources.
- AGATI now offers FSC (Forest Stewardship Council) wood seating certified for "chain of custody." Only wood from SFI or PEFC certified forests is used and a certificate is provided proving wood was harvested legally and taken from an FSC managed forest. Proof of chain of custody will also be provided.
- AGATI now offers furniture with FSC woods and composite cores. A certificate will be provided to prove the materials are FSC certified.
- AGATI is switching to using "CARB" (California Air Resources Board) compliant composite wood products. This standard addresses the formaldehyde emissions from the composite wood products by reducing the parts per million levels of VOCs emitted into the atmosphere by the formaldehyde found in current composite wood products.
- Water based glues are used for almost every application. Low VOC glues are Greenguard certified and used for all other applications.
- AGATI now offers water-based finishes.

Construction:

- AGATI engineers its chairs for superior lumbar support, patron comfort and long life, not ease of manufacturing.
- Many chair parts are steam bent rather than machined from glued-up or larger boards. More efficient use of product, results in less waste.
- Whenever possible, table legs are machined from blanks cut from wood bats (short log cut-offs from the sawmill) instead of resawing thicker lumber. This process allows greater lumber yield from the log and reduces waste.
- Table work surfaces are fabricated with Forbo Linoleum made from readily renewable natural materials. Forbo offers independent, peer-reviewed, full product Life-Cycle Assessments (LCA). Both Forbo and our laminate vendors are Greenguard certified.
- The steel AGATI uses has a 50% recycled rate for all metal furniture. Powder coat finishes are available which means no VOCs.
- Brushed stainless steel finishes are also available in select products

Shipping and Disposal:

- Approximately 95% of AGATI shipments are blanket wrapped cutting back on packaging and waste and allowing for re-use of blankets
- AGATI utilizes "Just-in-Time" manufacturing which results in less storage, less waste and conserves resources.
- AGATI waste is disposed of in a safe and controlled manner. The waste is picked up and recycled. AGATI uses what it is able to of the scrap (less waste) and whatever scrap is not used is also disposed of and recycled.

AGATI believes that being a green company is more than just providing a certificate. We are constantly researching ways to be more sustainable and stay in step, if not ahead, of the green movement. We believe in cradle-to-cradle green processes and continue to educate ourselves, our clients and our vendors in this tireless endeavor to ensure the well-being of the planet. For more information about CARB, FSC, VOCs, we invite you to visit us
