AGATI

Welcome to AGATI

AGATI Furniture is known for its innovative designs, durable construction and exceptional customer service. Throughout the years, the name AGATI has become synonymous with the words classic, quality and value. Offering a commitment that extends well beyond its competitors, AGATI has earned its reputation as a premier manufacturer and resource to architects and designers across markets.

Furniture styles range from classic, standard collections to contemporary designs and custom modifications. Each year brings more product offerings and a wider range of styles without compromising the integrity of the product. In the 1980's AGATI launched its library division. Word of mouth praise from librarians, architects and designers across the country helped AGATI build its name and solidify its foothold in the market. AGATI attributes its strong client base and repeat customers to solid relationships, a willingness to listen and individualized attention.

At the foundation of AGATI is its Design and Engineering department. Offering years of expertise, an in-house Design and Engineering team takes the project from drawing board to delivery. Furniture is made specifically for each project in order to meet the client's needs. AGATI understands the value of being a resource to both the client and the designer and takes every effort to ensure the greatest long-term return on investment.

AGATI collections are original designs and are constructed to endure constant heavy use. Wood side and arm chairs are assembled with mortise and tenon joints that are secured with hardwood metal pins, making the strongest joint possible. Chairs feature one-piece, steam bent, solid lumber back posts for superior stability and strength. Chair backs are engineered with lumbar support shaped into the back splats or slats, as well as designed for patron comfort. Table bases are constructed with end aprons and leg stretchers, and are mounted to the bottom face of the table tops with steel plates secured with mechanical fasteners. This structure provides a foundation for a solid, long lasting work surface. The time, effort, and care expended in the manufacturing of these products ensures many years of safe use.

In a world where resources are at a premium, AGATI takes its role seriously by staying current with green processes and technological advances. As clients increasingly turn to the internet for instant information retrieval, AGATI is able to provide faster access to resources through www.agati.com. Keeping the website fresh and timely allows AGATI to scale back on the amount of printed materials distributed.

The information age also translates into AGATI's furniture as power and data wire management issues are addressed before undertaking a project's furnishing designs. And while facilities are equipped with the most modern equipment and technology, traditional spindle carving and profile shapers still remain AGATI specialties. It is this contrast that demonstrates the foundation of AGATI – an ability to stay true to its roots in traditional design, while keeping in step with an ever-changing world primed for AGATI's inventive perspective on furniture design.

Ultimately, Agati furniture is built to stand the test of time. We believe in extraordinary architecture and remarkable furniture, and we look forward to enhancing your environment for years to come. Thank you for your interest in AGATI.

AGATI

Warranty

AGATI, Inc. manufactures its products to the highest quality standards. Therefore, AGATI products are warranted against all defects in materials and workmanship for a period of ten years from date of delivery. This warranty does not extend to COM, COL or any other customer supplied materials. During the warranty period, AGATI will, at its discretion, repair or replace defective merchandise free of charge.

The AGATI warranty is against defects in workmanship that would lead to the following: veneer lifting or peeling, glue joint failure, and wood joints pulling apart. AGATI handcrafts and finishes its products using the finest hardwoods and traditional hand finishing techniques. AGATI uses finishing techniques that are intended to highlight the inherent beauty of the wood used in its products. Depending upon the figure of the wood used, certain areas may absorb the stain differently than others. Wood is a natural product and will naturally have slight flaws and imperfections, which enhance the overall beauty. Customers should be aware that all finishes will mellow with age. Since wood is a natural material, some expansion and contraction is to be expected. The foregoing is not to be considered a defect in the materials or manufacturing process used and is not covered under warranty.

The AGATI warranty covers the lifting of any plastic laminate from the substrate but can only underwrite the laminate manufacturer's guarantee against scratching and chipping.

This warranty does not extend to damage resulting from shipping, accident, alteration, misuse, tampering, negligence, abuse, acts of God, or ordinary wear and tear. This warranty is given expressly and in lieu of all other warranties, expressed or implied, of merchantability and fitness for particular purpose and constitutes the only warranty made by AGATI. No warranty is made with respect to non-standard materials selected by and used at the request of the customer. No merchandise may be returned to AGATI without AGATI's written approval.

In addition to a ten year warranty, AGATI stands by a philosophy that buying AGATI is buying the future. AGATI constructs all of its products to enjoy a lifetime of use. However, furniture inherently ages and AGATI understands needs may change throughout a product's life cycle. Therefore, AGATI will continue to address service, design, and engineering issues and extend maintenance to all products for the duration of their use.

Etta

Guest Armchair

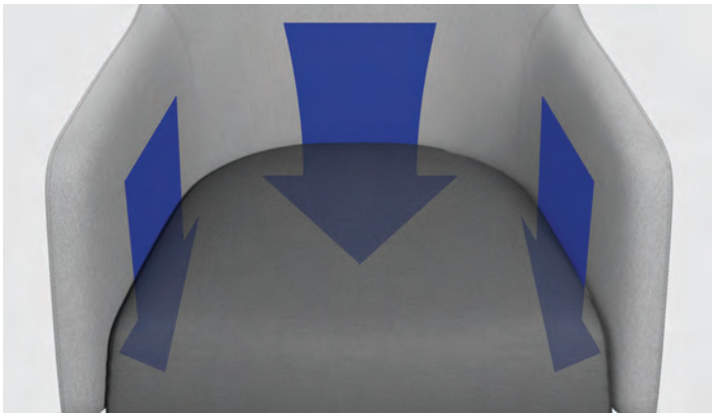

Crafted for Comfort

The Etta Guest Armchair expands the Etta collection with a fully upholstered design suited for working, studying, or dining. With mix-and-match materials and a replaceable seat, it offers designers a balance of form, function, and durability. Available with either a solid wood four-leg base or a polished aluminum swivel X-base, Etta brings comfort to any setting.

Designed to Perform

The seat was designed with cleanability in mind. It can be fully replaced if damaged and features a push-through around all edges for easy maintenance. This allows crumbs and debris to fall to the floor when pushed between the seat and back.

AGATI
FURNITURE

ADAPT2 Your Space

Adapt2 provides the flexibility to reconfigure your space, at any time, without any hassle. Choose from the Trapezoid, Rectangle and Arrow Wrap tabletop shapes. Arrange tables in various configurations for group work, or add acoustic panels for individual privacy. Easily move Adapt2 from stand-alone workstations to various groupings as frequently as you like -our tested durability and engineered mobility ensures they remain strong for years of public use.

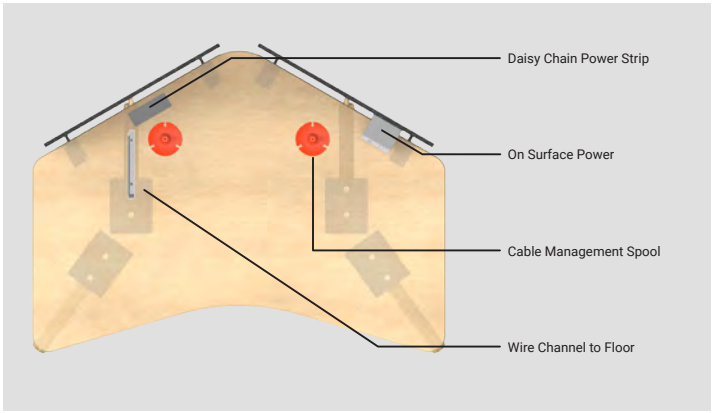

Flexible Power

Each Adapt2 Workstation includes a strategic wire management solution. On-surface power gives users easy access to connect, while the power strip underneath the worksurface offers a convenient extension. Two cable management spools neatly wrap any excess cord length. Legs are engineered with tracks to encase and precisely route cord down to floor.

AGATI FURNITURE

Legs

Select from metal or solid maple legs. With a focus on extreme durability, Adapt2 legs are engineered for frequent movement. Wheels on back two legs facilitate easy rolling when front two legs are lifted. Adapt2 is deliberately designed to stay steadfast through weight distribution when set in place.

CUBIT

Display Shelving

AGATI FURNITURE

Introducing Cubit

Cubit is a compact display, browsing, and storage unit built for shared spaces like libraries, classrooms, and universities. With a clean aesthetic, durable materials, and thoughtfully designed bin options, Cubit makes books and materials easy to see, reach, and engage with, encouraging interaction without adding visual clutter.

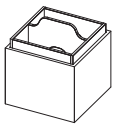

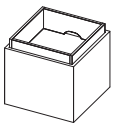

Smart, Functional Design

Cubit is available with two bin options: divider and open. Divider bins organize smaller collections with a panel to prop up books for better visibility. Open bins support bulk browsing. Both can be flipped to create a plinth-style display surface. Each bin lifts out completely to reveal hidden storage below, ideal for backup items or less frequently accessed materials.

Orb Lounge Chair

The Orb Lounge Chair wraps around guests like a baseball glove. Organic, circular shapes lend creativity to your floor plan in airport terminals, universities, libraries, or any public space. The wide, cushioned seat pan supports users for longer wait times. Orb has just the right amount of lumbar support to bolster users, too. Choose from three different leg base options.

The Orb was designed to simplify long-term maintenance. Easily remove the back and seat sections for ease of care, increasing the longevity of your furniture. Extremely durable, this lounge chair with a metal base is built to endure long public use.

MANIFEST

AGATI
FURNITURE

Six person workstation with
3Form dividers.

Built upon the same institutional standards that have become an AGATI signature, the Manifest features a durable, cantilevered table top. Behind its modern design, Manifest is solidly constructed to withstand the rigors of everyday use allowing Manifest to effortlessly transition between markets.

Three person pod with
3Form dividers.

Manifest 6 with 3Form dividers.

Six person zig-zag workstation
with 3Form dividers.

MANIFEST **Desking System**

Smart, simple, workspace solutions.

The Manifest Desking System is AGATI's newest and most contemporary desking system built upon the idea of affordable collaboration and configurability.

Designed in response to a need for a more collaborative work solution, Manifest is lighter in scale and design making it easy to configure to groups of all sizes and work needs. Optional returns or mobile tables allow for more seamless communication, integrated into standard configurations that include a straight bench, 120-degree pod or the aesthetically pleasing "zigzag" station.

Easy to set up and install, the Manifest supports wire management in an organized wire management basket that allows dual sided access to electrical. Accessories include panel dividers in 3Form, wood, laminate or tack boards, as well as optional shelving and pedestals. Work surface tops are also available in wood of laminate. Visit www.agati.com to view more options.

BROWN Collection

The Brown Collection makes a bold statement with a design motif achieved through the use of reveals. Horizontal and vertical reveal details accent table base ends, showcasing a strong, clean line design. Originally designed for the U.S. Courthouse Libraries, the Brown Collection featured contemporary solid wood, panel tables. Inset wood veneer tops and solid wood square edges grace each table giving the collection its handsome yet simple style.

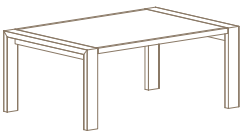

Melding metal and wood, the Brown Collection bridges the gap between traditional and contemporary. Optional metal reveals serve to highlight the Brown Collection's flawless lines and solid construction. Striking and enduring, the Brown Collection includes study tables, book tables, carrels, atlas and dictionary stands, end panels, shelving and reference desks. Visit www.agati.com to see more.

CHARLES

AGATI
FURNITURE

Left: Charles Lounge Chairs with square splat detail, left, and with dentil detail, right.

Bottom: Charles Triple Seat Bench with upholstered seat, and Occasional Table.

Charles Study Table shown with Charles Side Chair.

CHARLES Collection

The Charles Collection finds its inspiration in the crisp, design details of 20th century architect, designer and artist, Rennie Mackintosh. Featuring a "three square" motif integral to Mackintosh's design vocabulary, the Charles Collection is quickly identified by its pierced cutouts or applied squares.

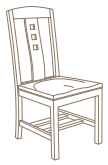

Evocative of Mission style's dignified integrity and fluid lines, the Charles Collection showcases a decorative, solid wood frame. Completing the Charles Collection are chairs, benches, lounge chairs, tables, occasional tables, carrels, dictionary and atlas stands, and end panels. Visit www.agati.com to see more options.

Charles Collection also includes children's table and chairs.

AGATI FURNITURE

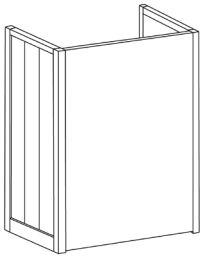

The Charles-DePaul Courtroom Collection

We merged the best elements from our two most popular transitional styles in the Charles-DePaul Courtroom Suite. Pulling from the popularity of the center-splat style found in the Charles Collection, we maintained the elegance of simplicity, as epitomized in the DePaul Collection to design the Charles-DePaul Courtroom Suite.

DE PAUL Collection

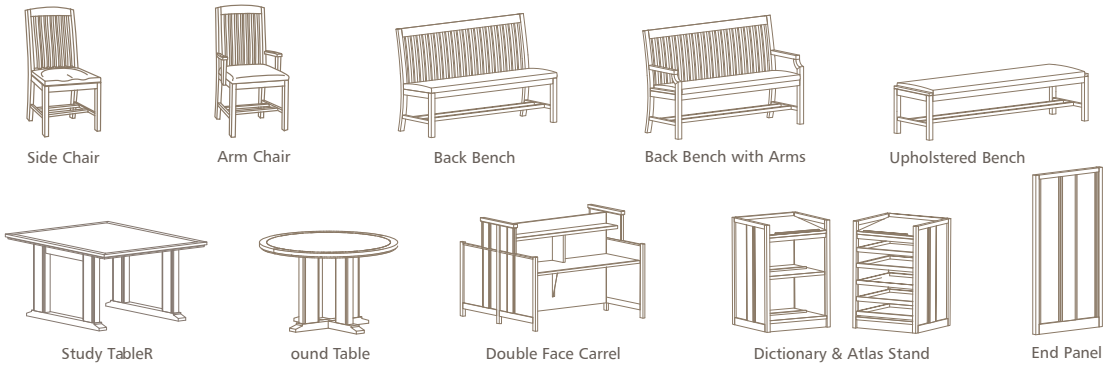

The DePaul Collection exemplifies transitional design. Starting with classic, traditional design and adding a twist of contemporary, the DePaul Collection is one of Agati's most popular collections. Originally designed for the DePaul University Law Library Project, the collection emphasizes the inherent qualities of the wood grain, the elegance of the design's simplicity and the importance of craftsmanship.

Generous, vertical lines adorn a trestle base construction. DePaul tables emphasize their stepped, vertical detail showcasing classic design with a modern flair. Solid wood chair and bench frames feature vertical back slats, side leg and double center stretchers. Chairs come in either carved wood saddle seats or upholstered slip seats.

The DePaul Collection includes chairs, study tables, carrels, a variety of benches, dictionary and atlas stands, plus end panels. Visit www.agati.com to see more.

Lexington Public Library, Lexington, NE

MYLES Collection

The AGATI Myles Collection can attribute its beauty to its simple lines and modest design. Influenced by Arts and Crafts styling, the Myles Collection features solid wood, triple slat detail set against a solid wood frame and panel construction.

Carrels feature three-fourths height end panels and overhead storage shelves. The Myles Collection's clean, unobtrusive design allows collection pieces to blend with their environment and coordinate seamlessly with other AGATI Collections.

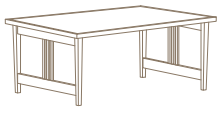

The Myles Collection includes a large selection of study tables, occasional tables, carrels, atlas and dictionary stands, benches, stools and end panels. Visit www.agati.com to view more.

GOTHIC Collection

Designed in response to the University of Chicago's Hutchinson Commons Project, the Gothic Collection is a study in detail. Harkening back to 12th century Cathedral Design, the Gothic is a visually rich collection.

Solid wood frames are embellished by a quatrefoil detail or a beautiful lattice design which adds detail and provides a source of light and openness to the pieces. Skillfully designed, the Collection's elegance belies its structure. Chairs and tables feature solid wood frames and are constructed to endure. The Gothic designs etched into each piece make the collection recognizable for its beauty and character.

The Gothic Collection includes chairs, lounge chairs, study tables, occasional tables, carrels, dictionary and atlas stands and end panels.

PRIMARY Collection

The AGATI Primary Collection was born out a need for the essentials. A collection of simply designed yet beautifully built furniture, the Primary Collection strives to meet budgets without sacrificing style. Ideal for the primary education sector where superfluous furniture need not apply, the Primary Collection highlights affordability and flexibility. Pair a Primary desk with file cabinet pedestals or configure the modular circulation desk to meet any size space. This collection of furniture proves to be space conscientious and durable enough for the everyday use of educational environments.

Available in standard AGATI finishes, the Primary Collection boasts study tables, carrels, a variety of desks, shelving and storage units. The AGATI Ella, Prairie and Behrmann chairs are often chosen to complement the Primary Collection. Visit www.agati.com to see more.

BAJA

The Baja Chair is a versatile, modern chair that offers a sloping, generous seat pan and a comfortable sit. A stylish back panel provides an abundant amount of back support. Its solid wood frame is complemented by formed wood veneer seat and back panels.

The Baja Chair is also available as an armchair and a stool. It is available in three finishes: maple, cherry or espresso. It can also feature an upholstered seat. An optional book rack beneath the seat makes the Baja Chair ideal for individual seating in places of gathering. Visit www.agati.com to see more.

CLASSIC CHAIRS

AGATI
FURNITURE

CLASSIC CHAIRS

CHARLES

Inspired by the crisp design details of Charles Rennie Mackintosh. Solid wood frame, three square motif on back splat. Arm or armless with carved wood or upholstered seat. Also available as a bench.

DEPAUL

The DePaul collection emphasizes the inherent qualities of the wood grain, the elegance of the design's simplicity, and the importance of craftsmanship.

Solid wood frame with vertical back slats. Arm or armless with carved wood or upholstered seat. Also available in a variety of bench options.

GOTHIC

The Gothic is a study in detail, but it's elegance belies its structure. Gothic chairs are solidly constructed, yet maintain a sense of airiness with its lattice design.

Solid wood frame with a quatrefoil detail on back splat. Arm or armless with carved wood or upholstered seat. Also available as a bench.

BEHRMANN

The Berhmann provides a solidly constructed chair – straightforward and simply designed. Use as a side wood chair or upholster for style and comfort. The modest design of the Behrmann chair makes it very adaptable.

Solid wood frame with vertical back slats, leg stretchers with bookrack, and modified arched top back rail. Carved wood saddle seat or upholstered slip seat.

PRAIRIE

Drawing on the Midwest's Prairie School of Architecture, these simple and well-designed chairs are a popular favorite.

Solid wood frame with horizontal, vertical or wavy back slats. Carved wood saddle seat. Also available as a high stool.

Prairie High Stool

AGATI chairs are characterized by a blend of aesthetics and engineering to create exceptional and enduring furniture. Chairs are constructed using Agati's signature mortise and tenon joinery. Each right angled joint is secured with a pin, making the strongest possible joint. To ensure superior stability, many chairs feature a one piece, solid wood back post from floor to top rail. AGATI chairs are timeless in beauty and will enhance their environments for many years to come.

AGATI's custom capabilities provide the flexibility to accommodate various projects and budgets. See our Custom Options information sheet to view some of the many options available. Many of these chairs are also available in child or youth sizes. Go to www.agati.com to view more options.

WHITE

The White chair is designed and engineered for optimal comfort and durability. These classic chair and stool designs look great in contemporary or traditional settings year after year.

Solid wood frame with vertical back slats or single back splat with three square motif. Carved wood saddle or upholstered seat. Also available as a high stool.

Custom Chair Options

AGATI simplifies the process of working with custom modifications. Whether it is a modification to an existing collection or a new design idea; our in-house design and engineering team assists from concept to completion. The Personal Sanctuary

The Gee Aviation – Pinwheel is a popular airport solution that balances privacy with spatial efficiency. Its unique orientation provides each traveler with dedicated workspace, power, and a clear line of sight. For enhanced focus, optional walls can be added to reduce noise and visual distractions, creating a serene sanctuary within busy terminals.

Dynamic Versatility

The Gee – Curve balances VIP comfort with high-traffic durability. Whether creating long retreats in expansive walkways or wrapping around columns in tight footprints, its adaptable design turns architectural challenges into seating opportunities.

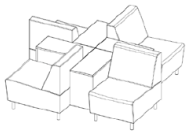

Endless Configurations

The Gee Collection is designed for total flexibility, allowing you to tailor layouts to the specific flow of your environment. Its modular components can be arranged in endless configurations, from expansive straight runs to intricate, winding curves that maximize seating in unique footprints.

HAMPTON Seating Collection

Today's environments call for not only effective but creative use of space. The need for collaboration and innovation prevails, without sacrificing design and style. AGATI answers that call with its sophisticated Hampton Seating. Available in a variety of configurations, the Hampton offers adaptable form and function allowing users to sit in comfort, while meeting in style.

The basic Hampton is perfect for a casual and open space, while optional surrounds can be added to envelop users for more seclusion. Both the curved and straight Hampton can be covered in chic fabrics, backed in sleek veneers or high pressure laminate. The Hampton can rest on metal or caster legs, or a plinth base. For additional separation, custom privacy screens may be added. An ability to stand alone or build-in allows the Hampton to provide ultimate flexibility in space configuration. No matter how big or small the space, AGATI's Hampton adds abundant seating and flair to spaces everywhere.

HAMPTON

AGATI's popular, versatile Hampton Seating is expanding its horizons with outer curves! While the basic Hampton is perfect for casual and open spaces, the curved Hampton effectively uses space through a sophisticated and versatile design. The curved Hampton comes in 90 degree segments that can expand to a 180 degree curve to accommodate larger groups. The Hampton features a shorter seat, taller back and a pitch 10 degrees more upright than other AGATI lounge chairs, making it ideal for wherever a work sit is preferable. Both the curve and the straight Hampton can utilize additional surrounds for extra privacy wherever free standing meeting places are needed.

HAVANA

A stylish, modern alternative to the traditional lounge chair, the Havana's comfort and adaptability make it an essential. Its smaller footprint allows for comfortable lounge seating even when space is at a premium. Havana is available in a variety of styles from a sumptuous lounge chair with wood or metal legs, to a stylish pull up, with or without upholstered arms. The Havana Pull Up is also available with a retro wood arm, or armcaps, for more institutional settings.

RIO PULL UP

The Rio Pull Up is the perfect complement to its companion chair, the Rio Lounge. A slimmer, more agile version of the Lounge, the Rio Pull Up still features the Rio's signature curves, supported by tapered legs and a solid wood base or a new caster base option.

A stylish, casual alternative to the lounge chair, the Rio Pull Up's adaptability makes it an essential: comfortable lounge seating, contemporary guest seating, or supportive in institutional settings.

The Rio Pull Up is available as a bar or counter height stool, a children's chair and also with high back options. The Rio Pull Up is a part of the AGATI Rio Collection, which includes lounge chairs, settees, sofas and a matching ottoman. Visit www.agati.com to see more.

AGATI is defined by versatility. Designs combine a unique blend of aesthetics and engineering, distinguished by their eclectic styles. Inspired by the need for furniture that is both timeless and universal, AGATI is committed to the design and engineering of each and every piece.

Furniture built to last a lifetime means investing in the future. AGATI is dedicated to implementing sound environmental practices such as utilizing domestic reforested lumber, as well as reusable packaging materials. AGATI believes in helping preserve resources at no expense to the integrity of the product or the satisfaction of the customer.

Celebrated for its design. Chosen for its quality.

ROMA

It's a rare occasion you see a Roma chair empty. The first chair in a room to be taken, the Roma Lounge Collection offers a warm, inviting sit. Exaggerated and rotund, the Roma's curved linear arms taper to offer a comfortable embrace and ample seat room. AGATI's signature back support provides hours of comfort whether lounging or studying.

Built for institutional use, the Roma Collection's strength is a perfect foil to its pleasing and abundant appeal. Satin nickel or chrome finish cast metal feet cap off each piece. The Roma Collection also includes a settee, sofa and matching ottoman. Visit www.agati.com to view more.

KEYSTONE

A keystone is defined as the central supporting element of a whole. And like its name, the AGATI Keystone Collection serves as a building block. Start with a simple lounge chair, and as necessary, build the optimal chair using the Keystone's abundant options.

Choose solid wood arm caps for a clean, simple corporate use. Add casters or a tablet arm for institutional settings. No matter what its use, the Keystone's solid steel frame construction makes it a mainstay.

The Keystone Collection comes fully upholstered with arched arms and back. With its sturdy construction and multifaceted capabilities, the Keystone will hold its place in any room, for many years to come.

TUXEDO

The Tuxedo chair is long on style, short on frill. This fresh and simple lounge chair is accented by streamlined angles and modern lines. Constructed with a steel frame, the Tuxedo will provide comfort for a lifetime.

The Tuxedo is fully upholstered with square side panels. Its many options include solid wood, satin nickel or caster feet. Tailor any Tuxedo by choosing from solid wood arm caps, tablet arm option or matching ottoman. Visit www.agati.com to see more.
